Interview Summary

A telephonic interview occurred on February 16, 2006 between the Examiner and Robin A. Sannes, representative for the Applicants. Applicants would like to thank the Examiner for the courtesies extended during the interview. No exhibits were shown and no demonstrations were conducted.

The Examiner and Ms. Sannes discussed claim 1 in view of the rejections based on Haertle, Mizuno '145, Mizuno '685, and Clothier et al. An agreement was made between the Examiner and Ms. Sannes that amending claim 1 to recite that the fabric conditioner was solidified onto the product carrier to secure the fabric conditioner to the product carrier would overcome the rejections and place the claims in condition for allowance. Each of the references cited by the Examiner requires an additional securing member to secure the product onto the product carrier. In addition, reciting that the product carrier has voids and that the fabric conditioner filled the voids in the product carrier to secure the fabric conditioner to the product carrier would also be allowed, and this has been recited in newly added claim 11. The Amendment filed herewith reflects the agreement reached between the Examiner and Ms. Sannes.
